Visualization to Bring in Money through Website

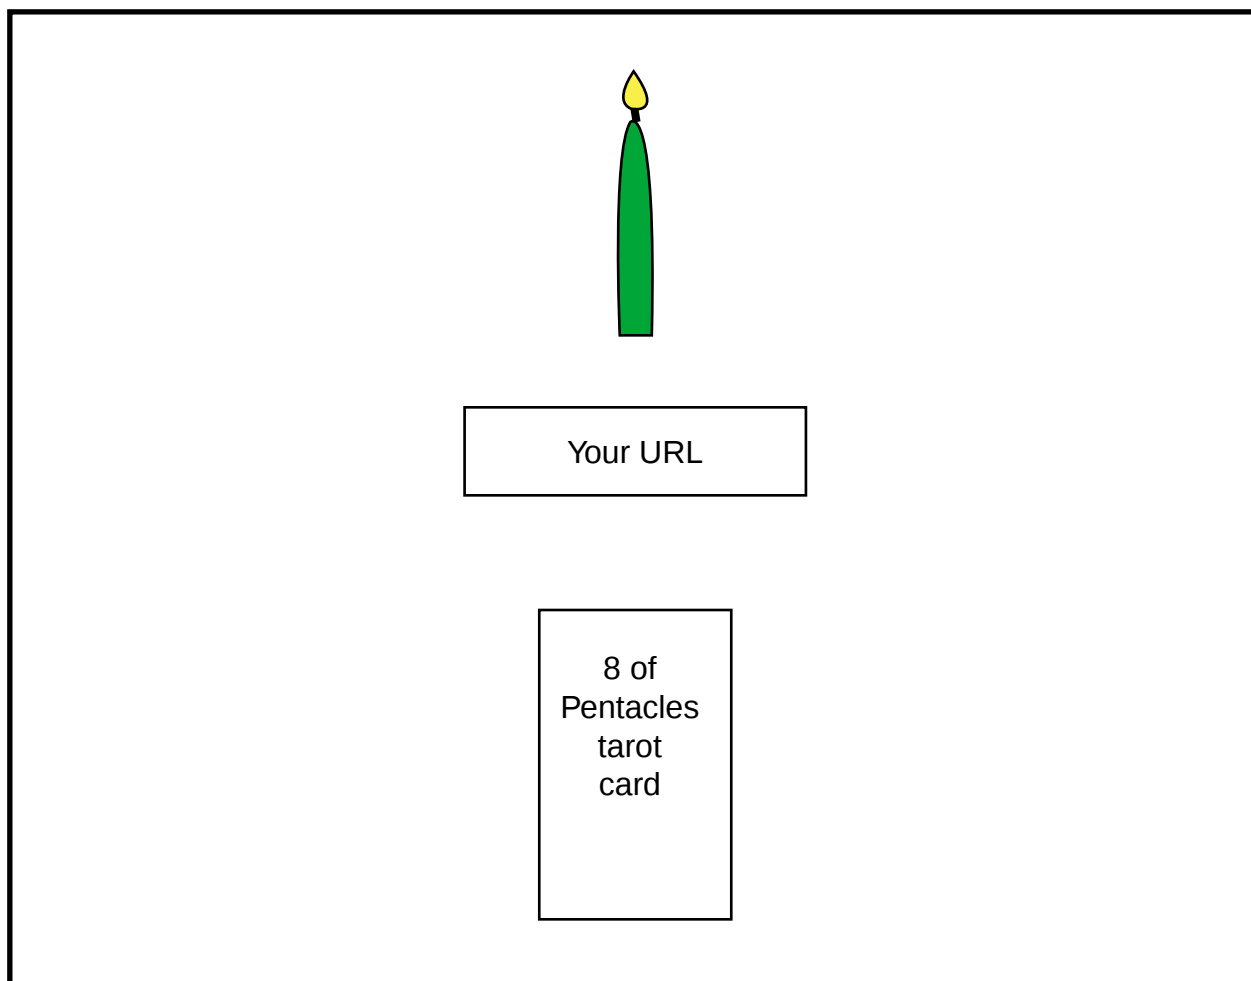

Bring up on screen the main page of your website (index.html). When your page has fully loaded, use the pointer finger on your power hand to “draw” the dollar sign on your screen. Close your eyes and visualize people coming to your website and making purchases of the products you offer or through the links you provide.

Repeat this visualization on a daily basis, as needed.

Simple Altar Layout for Financial Gains (website)

Green candle facing West. Slip of paper with your URL written on it. Eight of Pentacles Tarot Card (Waite's). (Coins sometime substitute Pentacles in different tarot decks.)

Burn candle for 3 nights before Full Moon.

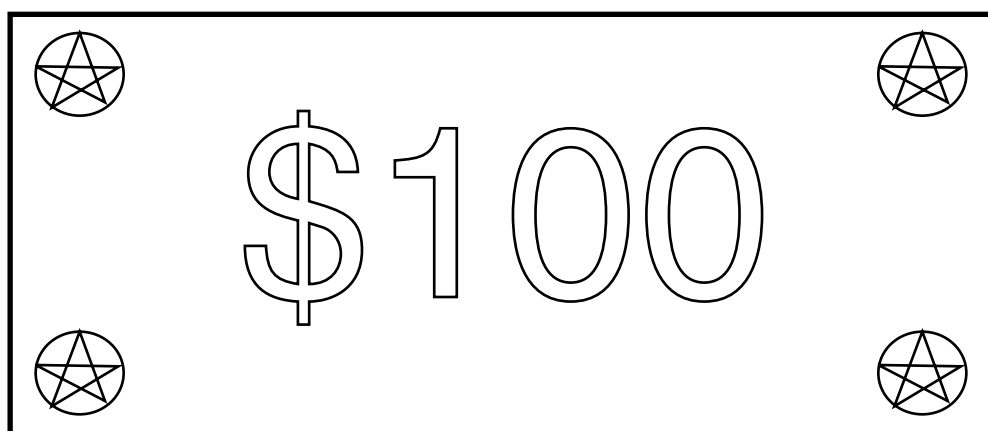

Money Page Spell

(Inspired by Nan)

If you have a specific page on your website that is used for generating income, write its URL on a slip of paper. Gather high denominations of fake/play paper money or make your own. Place the play money and the piece of paper with your URL into an envelope.

Mail the envelope to yourself and, once received, keep it unopened in a safe place such as where you keep your bank statements.

Book Affiliate Spell

If you are trying to earn money by selling books through an affiliate program, make sure that you own some of the books that you are linked to.

Place inside these books a square of paper that shows the following:

Front

What was bought Has been kept What is offered Will be met
--

Back

Your URL Name of affiliate program Earn [amount] by [date]

Visualization to Increase Visitors

If you need more visitors coming to your website, gather together a decorative glass jar and enough marbles to fill it. Keep the bag of marbles and the decorative jar at your desk or in your office space.

Each day place one marble into the jar and say:

“A world of many come together.”

Briefly envision people finding and visiting your website.

When the jar has finally been filled with marbles, display it as decoration. It will be an empowered magickal item that will continue to drive hits to your website.

As a bonus, the chant above also promotes peace and wholeness to the web community and to ones self.

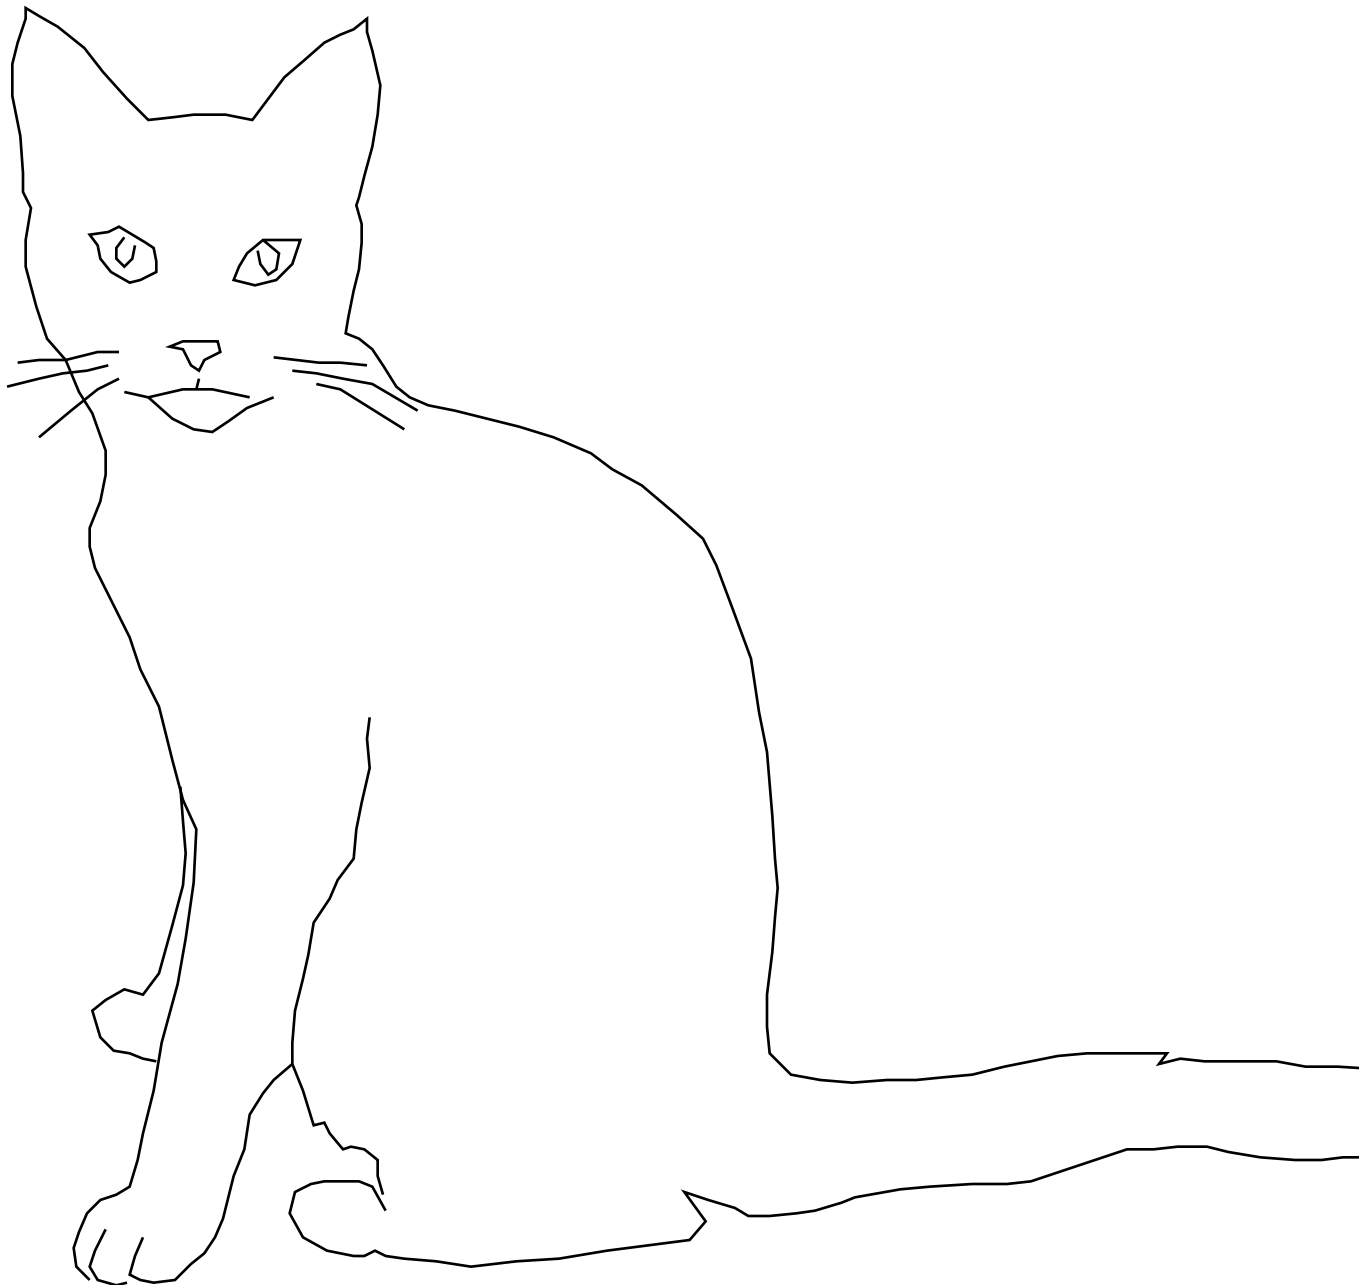

Feline Familiar Magick for Hits and Earnings

Make the most of your lazy (psychotic?) feline familiar and chant the following to him or her:

“For a hundred
Give a flick.
For a thousand
Give a twitch.

A hundred
Are the purchasers
Of the thousand
Who are visitors.”

Make an offering of catnip or some other special treat to your feline.

Inspiration for Site Content

If you want to create a website but do not know what you want it to focus on or you already have a site online but it needs to be fleshed out, then it is time to visit your local library for inspiration.

To make the most of your visit, perform this small ritual before venturing off.

Say:

“Books of knowing
Upon the shelves
Will shout to me
When I glance past.”

Now close your eyes and think of what you are seeking (inspiration for website content). Next, picture yourself finding books at the library and see yourself leaving the library with an armful of books.

When finished, visit your local library and browse the aisles and bookshelves. There is bound to be at least one book that will catch your attention.

Should you succeed at finding your inspiration at your local library, please consider donating a new book that may, in turn, inspire another.

Putting an Affiliate Program to Work

This sympathetic magic requires that you own and wear a pair of work boots or shoes.

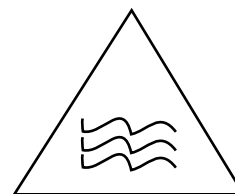

To help make an affiliate program work for your website, write the name of the program in chalk inside your work boots or shoes each time before going to work.

The idea here is that you are making the affiliate program literally “work”.

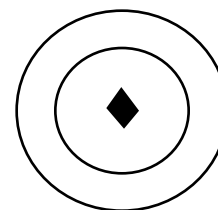

A slip of paper with the name of the affiliate program written on it is not recommended for this sympathetic magic because it can be lost all too easily. Losing the paper would be considered a bad omen.

Keyboard Cards

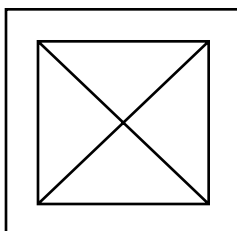

For inspiration and creativity when making site content, write this symbol on a blank index card or slip of paper and place it under your keyboard:

Domain Name Help

If you are unable to come up with a domain name that is not taken, try the exercise below.

Cut a small circle out of orange paper, about the size shown.

Take a pen, sheet of paper, and the orange circle to a quiet, comfortable place. Lie down, place the orange circle on your third eye, and close your eyes. Relax with deep breathing and in a few moments domain name ideas should start to surface.

Pause every few moments to write down your ideas and then return to this exercise.

By the end of 15 to 20 minutes you should have a page filled with name ideas.
